AUTO TENSION

Series

Merrylock 3050CL, a functional combination of overlock & cover stitch, will lead you into the unlimited creativity and imagination of sewing space. It reveals a friendly operation interface coming from human desire; operates with fluency to perform a perfect work.

By taking initiative approach of applying industrial standard specification is the main characteristic for Merrylock 3050CL to be unique from the others. Matching in excellence with professional sewing effect is highly accepted and praised by users. In addition, the mechanism design almost reaching 100% perfect even brings users' confidence for its reliable and durable usage. You will be amazed by its clever design, in particular when you face its friendly operation interface.

FRIENDLY INTERFACE

1. Looper Automatic Threader

A marvelous invention to offer the quickest way to thread the lower and cover stitch looper with one touch.

2. Build-in Narrow Rolled Hemming

By finger tip controls without changing the needle plate. "N" for normal sewing, "R" for narrow, rolled hem and cover stitch sewing.

3. Stitch Length Dial

To offer an accurate stitch length from 1mm to 4mm

4. Cutting Width Knob

Provide a stitch width of up to 7mm

5. Auto Tension Dial

Provide uses easily to adjust tension by turning the auto tension dial to select auto tension setting to meet sewing stitches which uses would like.

6. Removable Upper Knife

The upper knife can be concealed and pulled and turned with ease.

7. Differential Feed Knob

With varied differential feed adjustment to produce the flat seams in knits, and prevent puckering in fine fabrics.

8. Snap-on Presser Foot

For varied foot changer by fingertip touch.

9. Auto Tension Auto Release

Rise up the presser foot to lead auto tension release, making threading smoothly.

10. Built-in Lamp

To light up the sewing area.

11. Tension Fine Tuning & Color Coded

Provide uses to micro-adjust tension to get the best stitches according to different fabric. The color coded tension fine tuning, thread guide and threads paths for correct threading without mistakes.

12. Built-in Recursive Handle

Portable and carry in balance with ease and auto-return to original position.

13. Hand Wheel

Turns counter-clockwise as conventional hand wheel.

14. Electronic Speed Controller

Without any heat produced.

15. Presser Foot Pressure Dial

Provide simpler attachment to adjust presser foot pressure for sewing different fabrics.

16. Upper Looper Clutch

Provide overlock and coverstitch switched each other.

17. Auto Switch Off

Open the looper cover, then auto switch off.

18. 2-Thread Converter

The most convenient and simplest converter to switch 2-thread sewing option.

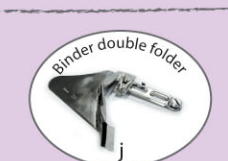

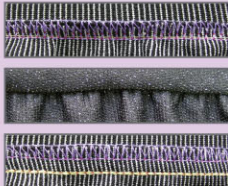

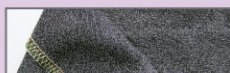

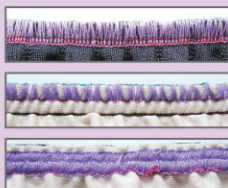

19. Clean Pocket

The best catcher to collect and clean scrap.

20. Soft carrying Case (Optional)

Easy to pack for a sewing traveler.

Regardless of the fabric, you can sew a professional stitch, the industrial standard, for dressmaking, decorations, and ready-to-wear fashions.

ACCESSORIES

Optional feet

a. Beading /Sequin Foot

Serging beads, pearls, sequins and piping is a snap with this beading foot

b. Cording Foot

Easily Serge decorative cording tape between two layers of fabric in one operation.

c. Taping Foot

Serging on tapes. On Stretch materials (knitwear) the seam are prevented from stretching when a tape is sewn on.

d. Elastic Foot

Serging on elastic tape with a uniform stretch.

e. Blind hem /Lace Foot

Designed specifically for stitching a turned hem. Achieve an expert look with this lace sewing foot.

f. Shirring Foot

Easily make and attach shirrs in one step to garments, pillows, and other home decorative items with this shirring foot.

ATTACHMENTS:

g.Single downturn hemmer

h.Binder double folder

i.Belt loop folder

j.Binder double folder

Perfect Stitching

1. Overlock Stitches

12 overlock stitch variations using 2,3, and 4 thread stitch formations. Perfect for all types of fabric, and any serging situations.

- Two-thread Wrapped Edge Overlock (narrow)
- Two-thread Wrapped Edge Overlock (wide)
- Two-thread Overedge (narrow)
- Two-thread Overedge (wide)
- Two-thread Rolled Hem
- Three-thread Overedge (narrow)
- Three-thread Overedge (wide)
- Three-thread Flatlock (narrow)
- Three-thread Flatlock (wide)
- Three-thread Rolled Hem
- Three-thread narrow Hem
- Three-thread Ultra-Stretch Mock Safety Stitch
- Four-thread Ultra-Stretch Mock Safety Stitch.

2. Chain Stitch

Two thread chain stitch - good for seaming, binding, gathering, and for decorative work on woven fabrics with little or no stretch.

3. Cover Stitches

Four versions of this industry-standard stitch - great for hemming knits, sewing elastics, stitching stretch lace, decorative seams, and binding edges.

- Triple Cover Stitch (width 5.6mm)
- Wide Cover Stitch (width 5.6mm)
- Narrow Cover Stitch (left and right narrow cover stitch)(width 2.8mm)

4. Combination Stitches

Four combination stitches (chain plus overlock). Strong seaming stitches that are great for fabrics that ravel easily.

- Four-thread Safety Stitch (one chain stitch and narrow or wide overlock)
- Five-thread Safety Stitch (one chain stitch and narrow or wide overlock)

PUNCHING MACHINE Embellisher

Merrylock SP1000 Punching Machine Feature

Merrylock SP1000 is designed for surface embellishment like embroidery, requiring no threading or sewing; it simply "meshes" fabrics together. Merrylock SP1000 pushes fibers together creating beautiful surface embellishments. Simply move the fabric freely under the needles to create any look or design. Merrylock SP1000 can make all your projects from garments to scrapbooks more distinctive. Let your creativity unlimited with the new Merrylock SP1000

Embellish with fabrics, yarns, ribbons, decorative threads and trims, paper and almost any other material for sewing.

SP-1000 Punching Machine

1. Safe and transparent pressure foot-protect your eyes. Easy to operate and to adjust the height.
2. Free-motion embellishing
3. Larger embellishing space
4. Longer free arm
5. No thread required
6. Dust box for cleaning easily
7. Electronic foot control
8. Built-in accessory box
9. Built-in lamp
10. Easy cleaning

Design for your life

SP1000 embellisher Decorative Application

Make a unique design by your unlimited imagination. You can use any type of materials to create your artistic decoration.

Easy-to-learn and to use.
High efficiency and security.
From adults to children can all enjoy it.

5 needles

Special barbed needles
mesh fabrics together

Surface area adjustment

Customize the embellishing area
by adding or removing needles.
